

Summary Draft Edition 1

2020 posed a serious threat for the existence of human civilization. The Ultimate Pandemic placed the entire world locked indoors without any social activity in fear of almost certain demise as the result of the corona virus. Creeping into 2021, with various local and governmental Covid-19 restrictions many people turned to the Metaverse. Once tapped in many users found these adorable avatars known as The Cryptopunks, 8-bit avatars on the Ethereum block chain that took over the Metaverse. Since this offering we've found that many other works of art as NFTs have found their way into the hearts of billions. Another of which being the Bored Ape Yacht Club NFTs. These NFTs have virtually taken the Metaverse left with no prisons. These art pieces have been so inspiring that even our hearts here at Design Studio Arts labs have generating our own versions representing women.

In just 12 short months NFTs have surpassed a more than \$13 Billion trading volume, with Opensea being a major conduit for the acquisition and sell of NFTs in the Metaverse. Ethereum is the block chain of choice rivaling in popularity to even the seemingly untouchable Bitcoin.

NFT Trading volume passed more than \$13 billion in 2021 which is more than a 42,988% increase from a more than modest number of \$33 million from 2020. We look to see even more gains and want you to be a part of the NFT experience. The Bored Ape Debutante Ball ape is just the NFT for you to acquire and enjoy all of its offerings and benefits.

NFT are minted on a blocked chain and serves as a method to identify authentic ownership of an asset. Our Bored Ape Debutante Ball NFT (Debby Ape) is a digital asset that represents your membership into our one of a kind exclusive club. Each Bored Ape is unique although some may be rarer than others providing equal membership in the world of Bored Ape Debutante Ball. This project isn't affiliated with the project of similar name but it does serves as inspiration along with the billions of women around the world who can be adequately represented by a Bored Ape Debutante Ball NFT as best we are able.

Your Bored Ape Debutante Ball Club NFT like all other Bored Ape Debutante Ball Club NFTs will be minted on the Ethereum block chain and controlled by the smart contracts that enables their functionality. All of the information is accessible publicly on the Ethereum block chain.

Humanitarianism

10% of Revenue Generated will go to benefit humanitarian causes.

15% will go into developing educational platform around the knowledge and development of Metaverse, NFT and Crypto technology. Making it easier to access and understand crypto technology to groups in the adverse socioeconomic status and providing financial literacy. Our founder has more than 10 years' experience in providing STEM (Science, Technology, Engineering and Math) to youth from diverse backgrounds. Blockchain technology is the perfect opportunity to not only teach youth about programming, art and technology but also introducing children to a form of financial literacy at an early age. Finance, Art, Science and Technology (FAST) can be a great opportunity to secure the future of the Metaverse in generations to come.

Royalties

10% of revenue will be returned back to the foundation on secondary market sells. Of this 25% will go back into the community funded DAO. 25% will go into future research and development of education while the remaining 50% will reside with the founder and future development of other projects.
